

## 5 Dinar Coins

### Problem Statement.

Amir got paid big time from ACM INSAT and now has  $K$  5-Dinar coins.  
If these coins add up to  $S$  Dinars or more he is considered Rich. Your job is to find out if Amir is rich or not.

### Input.

$$1 \leq K \leq 100$$
$$1 \leq S \leq 100,000$$

### Output.

If the coins add up to  $S$  Dinar or more, print “Rich”; otherwise, print “Not yet”

### Examples.

#### example 1

Input:

2 9

Output:

Rich!
